SUMMARY

Passionate about new technologies and building scalable web solutions. Seeking an opportunity to leverage my skills and gain practical experience in a professional setting.

PROJECTS

Appointment Booking Web Application

github.com/Gautammm16/appointment-booking.git · May 2024 – June 2024

· MERN STACK Appointment Booking Web Application

· It offers a seamless user experience by allowing users to schedule, modify, and cancel appointments. The MongoDB database efficiently stores and retrieves appointment data, while the Express.js framework handles the server-side logic and RESTful APIs.

· **Technologies Used** : MongoDB, Express.js, React.js, and Node.js.

PRICEE - E-commerce Web Application

Final Year Project · github.com/Gautammm16/Pricee.git · January 2023 – March 2023

· Pricee, an e-commerce web application focused on web scraping data from Flipkart to display products sorted by price (lowest to highest).

· Reporting system for users to report unsatisfactory products with messages.

· Admin review process for reported products and capability to block products receiving multiple reports.

· **Technologies Used**: MERN stack (MongoDB, Express.js, React.js, Node.js)

Pizza Delivery Web Application

Minor Project · github.com/Gautammm16/PizzaHub.git · January 2022 – February 2022

· Developed a pizza delivery web application enabling users to order pizzas online, with seamless payment integration, order tracking, and efficient management of orders. Built using the Next.js framework for server-side rendering and optimized performance.

· **Technologies Used** : Next.js, React.js, Node.js, Mongoose for MongoDB interactions.

EDUCATION

Masters of Computer Applications (Currently Pursuing)

V.N.S.G.U · Surat,Gujarat

· First Year CGPA (6.00)

Bachelor of Computer Applications

C . B . Patel Computer College · Surat,Gujarat · 2023

· Average of CGPA (7.04)

SKILLS

Languages: C/C++, Python, JavaScript, HTML/CSS, Java, SQL

Framework/Tools : React.js, Node.js, Express.js , MongoDB, Git, GitHub
