PROJECTS

Flixtar - Social Media and Marketing Agency

www.flixtar.in/ • November 2024 -December 2024

- Developed a professional website for Flixtar, a Social Media and Marketing Agency, tailored to the client's specific requirements to effectively showcase the company's profile and services.

Multiple Pov Video Player

github.com/Gautammm16/MultiStream-Player-Hub.git • May 2024 - July 2024

- The Multiple POV Stream Player is a web application built using the MERN stack (MongoDB, Express.js, React.js, Node.js) that allows users to watch multiple videos or live streams from sources like YouTube and Twitch simultaneously.
- The application dynamically adjusts the layout based on the number of provided video or stream URLs, supporting up to four simultaneous streams. Users can experience different points of view (POVs) within a single, cohesive interface

Pricee - E-commerce Web Application

github.com/Gautammm16/Pricee-Final.git • January 2023 - March 2024

- Pricee is an e-commerce web application that focuses on web scraping data from Flipkart., to display products sorted by price (lowest to highest).
 - Registered Sellers can also add their products and sell them.
 - Reporting system for users to report unsatisfactory products with messages. Admin review process for reported products and capability to block products receiving multiple reports.
 - Technologies Used: MERN stack (MongoDB, Express.js, React.js, Node.js).
-
